

HABITAT FOR HUMANITY

A group of Summit employees, in spirit of our core value of Service, volunteered to help build homes in partnership with Habitat for Humanity St. Louis. This organization's mission is to build homes, communities, and hope, and eliminate substandard housing in St. Louis City and County. It was an all-day event on 9/14/15 and our group worked on three houses located near Elwood Street and Minnesota Avenue, in the Carondelet Park neighborhood. The major task of the day was working on tall ladders, hanging ceramic fiber siding on the homes' exteriors.
